

Safety Has Its Rewards

It is with great pleasure we announce that PennFleet Corporation has received state certification through the Pennsylvania Department of Labor and Industry for establishing a Workplace Safety Committee that meets the required criteria set forth by the state. ACS assisted PennFleet in establishing and training their Safety Committee, which operates to identify and address safety concerns at both its Conshohocken locations and reviews workplace accidents.

“Through the use of ACS’ Safety Pays program, we were able to have our safety committee certified by the State and qualify for a 5% discount on our workers’ compensation policy. This discount alone almost pays for the ACS consulting fee for our entire safety program. The Safety Committee meets monthly to keep safety in the forefront of everyone’s mind. We feel that the Safety Pays program is a valuable service that ACS offers to its clients.”

Jim Kolea, Owner/President, PennFleet Corp.

About PennFleet Corp.

[PennFleet](#) offers guaranteed reliable fleet services to the Tri-State area. We are a family created, owned and operated company, with over 35 years of experience and dedication. Our ideals are based on long term customer relationships. We take pride in our work and are wholly focused upon complete customer satisfaction.
